MOST DISASTROUS FIRE

FEARED A HUNDRED LIVES ARE

LOST IN A MINE AT TELLURIDE.

RIDE, COLO.

TWENTY-TWO BODIES FOUND

Blaze Starts in Buildings at Mouth of

the Tunnel, Which Acts as a Flue

and Fills the Workings With Deadly

Gas—Two Hundred Men at Work at

the Time and About Half of Them

Make Their Escape.

Telluride, Colo., Nov. 21.—What is

likely to prove the most disastrous

accident that has ever occurred in a

metalliferous mine in Colorado resulted

from a fire which burned the buildings

at the mouth of the Bullion tunnel,

through which the Smuggler-Union

mine is worked, and which filled the

mine with deadly gas and smoke. It

is impossible to give even an approxi-

mate estimate of the loss of life, but

it is believed it will reach nearly if

not quite 100. Twenty-two are known

to have perished, their bodies having

been recovered.

The fire started from a defective

flue in the bunk house at the mouth

of the tunnel. It quickly communi-

cated with the other buildings. The

dense smoke from the burning con-

verter house, which was saturated

with oil, began pouring into the tun-

nel, which, with the shafts of the

mine, acted as a chimney.

The day shift of 200 men had just

gone on duty and before they could

be warned of their danger the levels

and the slopes were filled with gas.

As soon as the men became aware of

their danger efforts were made to

reach the surface through various ex-

its and about half of those in the mine

escaped. It will be impossible to as-

ertain the number still in the mine

for several hours on account of gas in

some of the levels.

The Smuggler-Union mine is one of

the oldest mines in the district and

has several abandoned openings, some

of which were available. Most of

those who escaped did so through the

old Union workings and the old Sheri-

dan tunnel.

A rescuing party cut a connection

through from the Commission work-

ings adjoining and took out part of

the men. Although the buildings were

partly consumed the dense smoke con-

tinued to pour into the tunnel and it

was not until 3 p. m. that it occurred

to the management to shut off the

draft by blasting rock into the tunnel.

It is believed by mining men that had

this been done as soon as the fire

started all loss of life might have

been avoided.

The property loss is about \$50,000,

fully covered by insurance.

WRECK ON THE SANTA FE.

Seven Trainmen Killed and Seventeen

Others Injured.

Los Angeles, Cal., Nov. 21.—A fatal

wreck occurred on the Santa Fe rail-

road one mile west of Franconia, A.

T., a switch station 20 miles east of

Needles, Cal., during the morning.

Seven trainmen were killed and three

passengers and fourteen trainmen were

injured. Limited trains, east and

westbound, numbers 4 and 3 re-

spectively, crashed together while

running at full speed. Train No. 4

was drawn by two engines, while the

westbound train had but one loco-

motive. The three engines were crushed

and blown to pieces by an explosion

which followed the collision.

Both the trains were made up of

vestibule cars of the heaviest and

most improved pattern and while they

stood the terrific shock well and pro-

tected the passengers to a great ex-

tent several of the cars took fire at

once and burned up. The dining cars,

one on each train, one Pullman and

two composite cars, were destroyed.

The dead are: P. M. Elligott, engi-

neer train No. 4; P. B. Goldsmith, fire-

man, train No. 3; F. M. Barnhardt,

barber, train No. 3; Walter Davorage

waiter, train No. 3; W. L. Case, fire-

man, train No. 4; H. A. Armitage, fire-

man, train No. 4; Sam Brown, waiter,

train No. 3. The bodies of the latter

three are missing and are probably

burned.

Did Not Obey Orders.

The collision is said to have been

due to a disregarding of orders on the

part of the crew of the westbound

limited, though full particulars on this

point are as yet lacking. From all ac-

counts, however, it is gathered that

the eastbound train had orders to

take the siding at Franconia and

await the passing of the westbound

flyer, which was running two hours

late and trying to make up time. The

eastbound train failed to reach the

siding, and, as the westbound train

did not wait, the two trains came to-

gether without warning and with an

awful crash.

From the meager details of the

scenes gathered from the passengers

it is learned that the sleeping cars,

with one or two exceptions, suffered

slightly, and as a result the passen-

gers were afforded comparative im-

munity from injury, the terrible re-

sults of the wreck being confined al-

most entirely to the train crews and

the employees of the dining car serv-

ice.

As soon as news of the wreck was

received at Needles, which is the di-

vision headquarters of the west end,

a wreck train was made up and at-

tended by a number of physicians

from that point, was hurried to the

scene. As quickly as possible the in-

jured were placed aboard and started

west for Los Angeles.

Says His Majesty's Health Is Good.

London, Nov. 21.—Sir Frederick

Treves, secretary to King Edward,

when proposing a toast to the king at

a banquet at Aberdeen, said it was

pleasant to know that his majesty had

never enjoyed such excellent health

as at present.

MINERS MUST DISPERSE.

Kentucky Judge Will Not Permit

Camps of Strikers.

Madisonville, Ky., Nov. 21.—County

Judge Hall has announced he will act

upon the sworn proof which he has

been gathering for several days and

will issue an order directing the camp

of striking miners at Nortonville to

disperse. He says he will not permit

the establishment of any more such

camps within his jurisdiction. If his

order is not promptly obeyed he will

call on the troops to enforce obedience.

New Interstate Commerce Law.

Washington, Nov. 21.—Senator El-

kins of West Virginia intends to have

a conference with President Roosevelt

before congress convenes about a re-

vision of the interstate commerce law.

By the retirement from the committee

of Senator Cullom, chairman of the

interstate commerce committee, Sena-

tor Elkins will become chairman. On

his becoming chairman it is his inten-

tion to prepare a law that will be

acceptable alike by the railroads and the

interstate commerce commission

Negroes Boycott Street Cars.

Jacksonville, Fla., Nov. 20.—The

negroes who have instituted a boycott

against the street cars on account of

a recent ordinance separating the

races on the cars, held a mass meet-

ing and agreed to organize a stock

company of 20,000 shares at \$1 a

share to operate a stage coach service

throughout the city, exclusively for

negroes.

tant Officials Taken, but the City's

Mayor Makes His Escape—Body of

Marines Landed From the United

States Gunboat Machias.

Colon, Colombia, Nov. 21.—On re-

ceipt of the news that General Alban

the military commander of the isthmus

had started to attack the Lib-

erals at Chorrera, near Panama, the

latter detached 160 men under Gen-

eral Patino to attack Colon. This

force embarked on board a train

bound from Panama to Colon Tuesday

evening at Las Cascades station, pre-

viously cutting off telegraphic commu-

nication across the isthmus. On ar-

riving at the outskirts of Colon, where

the government usually maintained a

small guard, the Liberals left the train

and in the initial skirmish which be-

gan soon afterwards Patino was killed.

The command of the Liberals then

devolved on Colonel Frederico Bar-

rera and they continued their march

on Colon, arriving there a few minutes

after the train, thus surprising the

whole town. The government troops

at Colon were outnumbered by the

Liberals.

Fighting immediately began at the

cuartel (barracks), which was soon

taken. There Senor Jaen, a judge of

the criminal court, was killed, and

Senor Muskus, the district representa-

tive of the department of the interior

was mortally wounded.

Fighting subsequently occurred at

the town hall, which was also taken

by the Liberals. Among the prisoners

captured by the Liberals were the

prefect, guardia and the comman-

dante of police.

Senor Paredes, the mayor, managed

to reach the gunboat General Pinzon

which sailed for a destination un-

known, probably Cartagena.

The whole affair was over in less

than three hours.

Communication with Panama has

been restored. This revealed that no

fighting had occurred there, that every-

thing was quiet and the city still in

the hands of the government.

The issue now depends upon the re-

sult of the fight which is now doubt-

less occurring at Chorrera, news of

which is anxiously awaited here. The

Liberals are busy raising reinforce-

ments locally. They are reported to

have several hundred men at different

railroad stations between here and

Panama.

United States Marines Landed.

The United States gunboat Machias

landed a detachment of marines here

during the morning. They are now

guarding the railroad station and other

property of the road. At a conference

between Commander McCrea of the

Machias, United States Consul Mal-

mors, Colonel Shaler, superintendent

of the Panama railroad, and Colonel

Barrera, the commander of the Lib-

erals, the latter was informed why

the marines had been landed from the

Machias. Barrera promised to guard

the city with his troops.

Trains are crossing the isthmus as

usual. There has been no obstruction

of free transit so far.

The news of the capture of Colon,

which reached Panama when commu-

nication was restored with that city

during the morning, was a great sur-

prise to the inhabitants of that place.

According to the latest news re-

ceived from Panama nothing has yet

been heard in that city concerning the

outcome of General Alban's expedi-

tion against the Liberal forces at

Chorrera. It is said that information

of happenings at Colon has been sent

ment troops at Panama, numbering
about 300 men, are busily engaged in
the construction of earthworks and
barricades at the railroad bridge go-
ing into the city in anticipation of an
early Liberal attack.

Colonel Shaler says no request has
been made upon him to convey gov-
ernment troops to Colon. If such a
request was made it would be granted,
but Colonel Shaler does not consider
it likely. The Liberals claim to have
at least 700 men in possession of the
different railway stations on the line
between here and Panama. These
men would doubtless do their utmost
to prevent the transportation of gov-
ernment troops to this place.

WILL DEFEAT ALBAN.

Dr. Restrepo Says the Colombian
Leader is in a Trap.

New York, Nov. 21.—Dr. Restrepo,
head of the Colombian junta in this
city, gave out a statement in which
he says:
"General Alban, with 1,100 men and
6 field pieces, started to attack our
forces at Chorrera, 15 miles from
Panama. We have 3,000 men there,
and, according to numbers, we might
be expected to defeat General Alban.
Yet he is confident he can rout us.
His confidence is based on the belief
that our force under General Benjamin

Horrera, with General Lugo in im-
mediate command, is poorly armed and
equipped.

"Therein lies the trap. We have
3,000 stand of arms, which have been
sent from New York within the last
three months. We have artillery also.
General Alban will find that he has
made the mistake of his life in at-
tacking us, for that is what we have
tried for months to tempt him into
doing.

"We firmly believe that within two
days Panama and the rest of the isthmus
will be in our hands. We spread
reports that we lacked rifles and that
we had no ammunition and General
Alban believed them."

News has been received by Dr.
Restrepo that the Colombian refugees
have purchased a gunboat of 700 tons
displacement that had been built for
the republic of Salvador. Besides this
vessel the insurgents have two other
gunboats. Dr. Restrepo says that the
boat recently purchased is armed with
eight breech loading guns of two miles
range and four Gatlings.

ALL DEPENDS ON ALBAN.

If He is Defeated Affairs Will Be
Serious for Colombian Government.

Washington, Nov. 21.—The news of
the situation on the isthmus came to
the Colombian legation here in the fol-
lowing cablegram from General Ar-
zona, acting governor of Panama, in
the absence of General Alban, who is
leading the Chorrera expedition:
"Colon is being attacked. Scarcity
of troops here. Traffic may be inter-
rupted."

While the above dispatch does not
state that the city has fallen Mr. Her-
ran, the Colombian charge d'affaires
at Washington, credits the news to
this effect. When asked as to what
results may be expected from the cap-
ture of the city Mr. Herran said:

"It will depend entirely upon the
success or failure of the expedition
under General Alban, which is headed
for Chorrera to engage the insurgents
at that point. If General Alban is suc-
cessful the capture of Colon should be
a comparatively easy matter. But if,
on the other hand, the government
expedition should be defeated, the re-
sults undoubtedly would be disastrous
for the insurgents then would have,
temporarily at least, undisputed sway
over the entire isthmus."

Mr. Herran naturally was consid-
erably concerned at the news, espe-
cially because of the close proximity
of Colon to Panama, the leading city
on the isthmus and second only in im-
portance to Bogota.

WOULD VISIT AMERICA.

Aguinado Wishes to Explain to Con-
gress the Desires of the Filipinos.

Manila, Nov. 21.—Aguinaldo has
written General Chaffee, the military
governor of the Philippine Islands,
asking the latter's permission to go be-
fore congress and express the desires
of the Filipino people. Aguinaldo fur-
ther requests to be accompanied by
eight friends whom he designates,
four of whom are prisoners at Guam,
while the others are prominent in
Manila.

Sixto Lopez, who has been in the
United States and in Europe in the in-
terest of the Filipino insurgents and
who is now at Hong Kong, has written
to Governor Taft asking to be ex-
empted from taking the oath of alle-
giance to the United States upon his
arrival at Manila, asserting this action
might injure his labors in behalf of
peace.

A fund is being raised by the Fed-
eral party in Manila for the purpose
of attempting to prevent the execution
of the Filipino general, Isidoro Torres,
who surrendered to the American au-
thorities in the early part of this year
and who was later tried on charges of
having violated the rules of warfare
and sentenced to death. Several con-
gressmen will be asked to exert their
influence in favor of General Torres.

NEBRASKA WILL JOIN.

She is With Minnesota and Washing-
ton in the Railroad Fight.

Lincoln, Neb., Nov. 21.—Any form
of railroad consolidation between the
Union Pacific and Burlington lines
tending to lessen competition of these
roads will be opposed by Governor
Savage. The governor said during the
day that Nebraska would join with
Minnesota and Washington in rigidly
enforcing the laws against combina-
tions, which in this state he regarded
as plain and unmistakable. The gov-
ernor said:
"Nebraska will not take a back seat
in the enforcement of the law. The
state constitution prohibits consolida-
tion of parallel railroad lines, and if
there is any violation of the constitu-
tion I shall use my energies toward
enforcing the law against corporations
the same as private individuals. I feel
warranted in calling the attention of
the attorney general to the matter
and on him I shall rely to investigate."

THE YUKON CONSPIRACY.

Threatened Uprising Attributed to the
"Soapy Smith" Gang.

Victoria, B. C., Nov. 21.—C. D. New-
ton, a member of the Atlin board of
trade, who arrived here recently from
the North, speaking of the alleged
conspiracy to overthrow the Yukon
government, said he had heard of it
before he left the North, but he paid
little attention to it. Some of the
"Soapy Smith" gang, he states, is still
to be found at Skagway in consid-
erable numbers. Although they have a
few sympathizers they are by no
means the dominant element there.
It was to them that Mr. Newton at-
tributed any conspiracy now threat-
ened, while the same element was at
the bottom of the flag incident. Should
they ever attempt to rise in rebellion
he believes that the good American
residents would be among the first to
suppress them.

RESENTS INSINUATIONS.

Bulgaria Denies Acting in Bad Faith
Regarding Miss Stone.

Sofia, Bulgaria, Nov. 21.—The for-
eign office here resents the insinua-
tions published abroad that the gov-
ernment is acting in bad faith in the
matter of effecting the release of Miss
Stone and in regard to its attitude to-
ward Mr. Dickinson, affirms its entire
readiness to take any action suggest-
ed by him. The foreign office also
averts that, acting upon the suggestion
of Mr. Dickinson, it caused the village
of Gratchovo to be surrounded and
searched a fortnight ago, but the
brigands were not there. It also says
that Mr. Dickinson's later informa-
tion, to the effect that the bandits
were concealed in a defile of the Bel-
litzer mountains, district of Dubnitza,
could not be acted upon by it as an in-
quiry showed the place in question to
be within Turkish territory.

The latest intelligence received here
sets forth that the brigands are hold-
ing out for a high figure of ransom
and it is asserted that they are able
to keep their captives as long as may
be necessary.

Mr. Dickinson, according to The
Vezirga Posta, whose editor was a
member of a former Macedonian com-
mittee, has sent an ultimatum to the
brigands giving them six days in which
to accept a specified sum as the ran-
som for Miss Stone. If this is not ac-
cepted within the time limit Mr. Dic-
kinson's offer will be withdrawn.

GAVE HIMSELF UP.

Negro Slayer of the Montgomerys
Asks for Protection.

Oxford, Miss., Nov. 21.—Will Mathis,
who is charged with the murder of
two deputy marshals, Montgomery by
name, walked into the little town of
Dallas, 12 miles south of here, and
surrendered to a justice of the peace
and two citizens. Mathis had been
pursued by bloodhounds, and, realizing
that his capture was certain, the fugi-
tive voluntarily gave himself up
and asked for protection. He was
turned over to the posse and started
for Oxford, but it is understood that
he will not be brought to this city.
The officers announce they will pro-
tect the prisoner at all hazards.
A negro named Orlando Laster has
confessed the details of the crime.
He states that Mathis induced the
officers to spend the night at his house
and shot them after they had gone to
bed, the negro holding the lamp.
Mathis robbed the bodies of watches,
money and pistols, pulled the bodies
on the floor, placed a straw mattress
over them and set it on fire.

ANTI-CHAMBERLAIN STORM.

German Government Will Be Unable
to Control or Stop It.

London, Nov. 21.—The Berlin corre-
spondent of The Daily Mail, who re-
ports the anti-Chamberlain storm as
"containing such proportions that the
government will be unable to control
or stop it," says:

"Official circles are now joining in
the agitation, which shows that they
feel their position strong enough to
justify them in disregarding the Ger-
man government's policy of neutral-
ity. It would seem as if, in addition
to the empress, who, however, has
little political influence upon Emperor
William, the higher court officials
have lately become influenced by the
Pan-German aspirations, several nobles
declining to attend the court festi-
vities because they disapprove of
the kaiser's policy. Decency would
forbid the reproduction of the atroci-
ous cartoons on Mr. Chamberlain in

American Vice Consul at Zeittau, Ger-
many, Placed Under Arrest.

Berlin, Nov. 21.—Referring to the
arrest last week of Mr. Schilling, the
American vice consul at Zeittau, Ger-
many, The Lokal Anzeiger explains
that Mr. Schilling was arrested early
in the morning at his residence in
Zeittau in mistake for another man.
He was detained until evening, when
his father, who is the Leipzig repre-
sentative of an American company,
identified his son through the Ameri-
can consul at Leipzig and Mr. Schilling
was liberated. The American vice
consul was mistaken for a fugitive
priest from Magdeburg named Mat-
thes.

Mr. Schilling has called upon Mr.
Andrew D. White, the United States
ambassador, to report the matter of
his arrest and procure satisfaction there-
for.

WILL PROBABLY BE ELECTED.

Now Thought Certain That Colonel
Lynch Will Go to Parliament.

Dublin, Nov. 21.—It is now regard-
ed as certain that Colonel Arthur
Lynch will succeed in the parliam-
entary contest in Galway, where he
is opposed by Horace Plunkett, Union-
ist, in spite of the fact that he claims
to rank as a colonel in the Boer army
and if he acts foot upon the soil of
Great Britain he will be arrested and
sent to South Africa for trial.

The bad weather has tended to cool
the election animosities, but there was
considerable disorder during the day,
which kept a large force of police
busy. There were continued demands
upon the police to prevent or suppress
conflicts. The city is overflowing with
armed persons and it was a common
sight to see persons walking about
with bandaged heads.

W. C. T. U. National Officers.

Fort Worth, Tex., Nov. 20.—The na-
tional convention of the W. C. T. U.
elected the following officers: Presi-
dent, Mrs. Lillian M. N. Stevens; cor-
responding secretary, Susanna M. D.
Frye; recording secretary, Mrs. Clara
C. Hoffman; treasurer, Mrs. Helen
Morton Barker; vice president-at-large,
Miss Anna Gordon. It was decided to
cast in fortunes with no political
party. A resolution was passed asking
President Roosevelt to refrain from
recommending statehood for Okla-
homa and Indian Territory.

THURSDAY, NOVEMBER 21, 1901.

MINNESOTA beats the world for fine winter weather, of which the present is a sample.

THE board of control has saved the state \$5,000 a year in the matter of insurance on state buildings in policies just written. Give them credit for that.

THE Fergus Falls city council will be asked by petition to pass an ordinance prohibiting spitting on the sidewalks. Thus are the rights of the street loafers being abridged.

THE Albert Lea Tribune hits the nail on the head when it says "instances are not rare when great minds cannot agree, but personal grievances and dislikes should not enter into newspaper discussion to any great extent."

It takes two tons of plug tobacco and half a ton of smoking to supply the wards of the state in the penitentiary, insane hospitals and asylums per quarter. It may be stated that none of the weed is given out at the reformatory or at the state training school for boys.

Mayor Hugo has shown no disposition to in any way interfere with the order.

The driving park directors report that the association is short a considerable sum of money, the principal shortage being due to the fact that so much money had to be expended in making costly improvements and that the returns from the trotting meets were not as large as were expected.—Wadena Pioneer-Journal.

There is a suit for damages in progress at Fergus Falls this week which will interest some of our readers. Dr. Berthold, of Perham, who is well known here, is the defendant in a damage suit brought by a woman named Mrs. Gratzek. She claims that the doctor made an allegation derogatory to her character in a barber shop at Perham, and she wants a plaster in the shape of \$5,000 placed over the wound.

Hon. C. B. Buckman in Minneapolis Journal anent congressional matters:

Candidates do not seem to be jumping over each other to get into the fight. Senator Brower has concluded not to enter, I believe. Senator Jones is thinking about it, but, like several others, he has not made up his mind what to do. There is plenty of time, though. The campaign will be long enough if it does not begin until spring. Then, in our district, the man who is nominated has no sure thing for election, and will have to keep right on campaigning up to election day.

His First Business Venture.

An American capitalist who has made a fortune running far into the millions likes to tell a story of his first business venture and how he saddened the local grocer. At this time he was fond of frequenting a public salesroom near his home where all sorts of bargains were offered:

One day I noticed several boxes of soap of a certain brand which I had often been sent to buy at the corner grocery. I thought to myself, "That will go cheap," so I ran to the grocery and received a promise from the man in charge to buy as much of the soap at a certain figure as I could furnish. Of course he never suspected that I could furnish any of it.

I returned to the salesroom, and when the soap was put up I bid it in, and it was knocked down to me. My name was demanded, and when I gave it in a shrill voice everybody laughed, for I was then only eleven years of age.

Amused as they were at the sale, the bystanders were amazed when I bid in the whole lot of twenty-two boxes. I had them carried over to the grocery and received the price agreed upon. The grocer wore a weary look when he heard how I had obtained the soap. He said:

"Well, I guess I could have done that myself."

I replied that I guessed he could, too, but he hadn't.—Youth's Companion.

Man Who Named America.

Few Americans are aware of the fact that the name of their continent is due to a German scholar. In 1507 Martin Waldseemuller, also known as Hylacomylus, of St. Die, in the Vosges, edited a book called "Cosmographie Introductio," in which he gave a translation of Amerigo Vespucci's description of his voyages.

That was just the time when Amerigo's fame filled the world, while Columbus' disgrace overshadowed his merit, and evidently his name had never reached the quiet village in the Vosges when Amerigo trumpeted forth his own glory. So Hylacomylus proposed that, since the new continent was, after all, not a part of the Indies, no name would suit it better than that of his famous explorer, Amerigo.

The book was read far and wide, and so quickly was the proposition accepted that, when later on the true discoverer was known, the name was already rooted too deeply in general use to be abolished, and was even extended to the north part of the continent, while Hylacomylus had only meant it for the present South America.—National Geographic Magazine.

For Tired Eyes.

Eyes will be greatly strengthened by putting the face down into a glass or eyecup of water the first thing in the morning and opening them under water. This is somewhat difficult to do at first, but if the water for two or three days be tepid and gradually made colder by imperceptible degrees until it is no shock to put the face into quite cold water it will soon become quite easy and is very invigorating and refreshing.

If done regularly every day, this treatment alone will preserve the sight into quite old age. There is a right and wrong way of wiping the eyes after this, too, and the right way is to pass the soft towel very gently from the outer angle inward toward the nose.

If after a long day the eyes feel so hot and tired that they seem dim when one tries to read or to do a little necessary sewing for oneself, they should be bathed with cold tea from which the leaves have been removed.

It Jarred Him.

"Pleasant offices you have here," said a policy holder who visited a life insurance office in the Postal Telegraph building in New York to pay his premium. The windows overlook the City Hall park and the Nathan Hale statue. "Yes," replied the insurance man, "but the inscription on that Hale statue, patriotic and inspiring though it is, strikes a discordant note in the soul of one who is underwriting risks on men's lives. Look at it—My only regret is that I have but one life to give in defense of my country!"—New York Times.

Dealing in Futures.

Mr. Newed—I have an option on that Blank avenue house. How would you like it for our home, my dear?

Mrs. Newed—Oh, it's a pretty place, but you know it is said to be haunted. Mamma says she wouldn't set her foot inside the door for any amount of money.

Mr. Newed—That settles it. I'll close the deal for it the first thing in the morning.—Chicago News.

Arab Music.

Arab music has been described as the singing of a prima donna who has ruptured her voice in trying to sing a duet with herself. Each note starts from somewhere between a sharp and a flat, but does not stop even there and splits up into four or more portions, of which no person can be expected to catch more than one at a time.

To Save Time.

Visitor—No, I won't come in. Could I see Mr. Jones for two minutes?

Servant—What name shall I say, sorr?

Visitor—Professor Vondersplinkentootieheimer.

Servant—Och, sure ye'd better step in and bring it wid ye, sorr!—Punch.

Not Necessary.

"When you are at a loss for a suitable word, do you ever apply to your wife?"

"No," replied the writer; "I don't have to. Her entire vocabulary is coming my way most of the time."—Chicago Post.

Few Attend Mapleson's Funeral.
London, Nov. 19.—The funeral of Colonel J. H. Mapleson, the operatic impresario, at Highgate, a suburb of London, was a sadly neglected ceremony. A solitary carriage, containing a brother and a brother-in-law of the deceased, followed the hearse. Not one of the great operatic artists either attended or sent a floral token, and only a few private and family friends were present at the interment in Highgate cemetery.

Colonel of Cavalry Retires.
Washington, Nov. 19.—Colonel Henry E. Noyes, Second cavalry, has been retired on account of age. He was appointed to West Point from Maine in 1857. His retirement will promote Lieutenant Colonel Eli L. Huggins, Third cavalry, now in the Philippines, to be colonel of the Second cavalry, and Major Earle, inspector general at Fort Myer, Va., to be lieutenant colonel of the Third cavalry.

London, Nov. 13.—Lady Catherine Jane Carew, grandmother of the present Baron Carew, died at Woodston, Waterford, aged 104. She was a guest at the famous Brussels ball on the eve of the battle of Waterloo and was a noted beauty at the court of Louis Philippe.

Candidates do not seem to be jumping over each other to get into the fight. Senator Brower has concluded not to enter, I believe. Senator Jones is thinking about it, but, like several others, he has not made up his mind what to do. There is plenty of time, though. The campaign will be long enough if it does not begin until spring. Then, in our district, the man who is nominated has no sure thing for election, and will have to keep right on campaigning up to election day.

ENGINEER TARBELL DEAD.

Faithful Employee of the Northern Pacific At Fargo Dies Last Night At the Sanitarium.

Last night at 11 o'clock W. P. Tarbell, an engineer for the Northern Pacific on the Dakota division, whose home was at Fargo, died at the N. P. Sanitarium in this city, after being a sufferer for sometime with pneumonia.

Deceased had been in the employe of the Northern Pacific for a long time and is well known among all the railroad men. He was in his 47th year.

HENRY I. COHEN.

His First Business Venture.

An American capitalist who has made a fortune running far into the millions likes to tell a story of his first business venture and how he saddened the local grocer. At this time he was fond of frequenting a public salesroom near his home where all sorts of bargains were offered:

One day I noticed several boxes of soap of a certain brand which I had often been sent to buy at the corner grocery. I thought to myself, "That will go cheap," so I ran to the grocery and received a promise from the man in charge to buy as much of the soap at a certain figure as I could furnish. Of course he never suspected that I could furnish any of it.

I returned to the salesroom, and when the soap was put up I bid it in, and it was knocked down to me. My name was demanded, and when I gave it in a shrill voice everybody laughed, for I was then only eleven years of age.

Amused as they were at the sale, the bystanders were amazed when I bid in the whole lot of twenty-two boxes. I had them carried over to the grocery and received the price agreed upon. The grocer wore a weary look when he heard how I had obtained the soap. He said:

"Well, I guess I could have done that myself."

I replied that I guessed he could, too, but he hadn't.—Youth's Companion.

Man Who Named America.

Few Americans are aware of the fact that the name of their continent is due to a German scholar. In 1507 Martin Waldseemuller, also known as Hylacomylus, of St. Die, in the Vosges, edited a book called "Cosmographie Introductio," in which he gave a translation of Amerigo Vespucci's description of his voyages.

That was just the time when Amerigo's fame filled the world, while Columbus' disgrace overshadowed his merit, and evidently his name had never reached the quiet village in the Vosges when Amerigo trumpeted forth his own glory. So Hylacomylus proposed that, since the new continent was, after all, not a part of the Indies, no name would suit it better than that of his famous explorer, Amerigo.

The book was read far and wide, and so quickly was the proposition accepted that, when later on the true discoverer was known, the name was already rooted too deeply in general use to be abolished, and was even extended to the north part of the continent, while Hylacomylus had only meant it for the present South America.—National Geographic Magazine.

For Tired Eyes.

Eyes will be greatly strengthened by putting the face down into a glass or eyecup of water the first thing in the morning and opening them under water. This is somewhat difficult to do at first, but if the water for two or three days be tepid and gradually made colder by imperceptible degrees until it is no shock to put the face into quite cold water it will soon become quite easy and is very invigorating and refreshing.

If done regularly every day, this treatment alone will preserve the sight into quite old age. There is a right and wrong way of wiping the eyes after this, too, and the right way is to pass the soft towel very gently from the outer angle inward toward the nose.

If after a long day the eyes feel so hot and tired that they seem dim when one tries to read or to do a little necessary sewing for oneself, they should be bathed with cold tea from which the leaves have been removed.

It Jarred Him.

"Pleasant offices you have here," said a policy holder who visited a life insurance office in the Postal Telegraph building in New York to pay his premium. The windows overlook the City Hall park and the Nathan Hale statue.

"Yes," replied the insurance man, "but the inscription on that Hale statue, patriotic and inspiring though it is, strikes a discordant note in the soul of one who is underwriting risks on men's lives. Look at it—My only regret is that I have but one life to give in defense of my country."—New York Times.

Dealing in Futures.

Mr. Newed—I have an option on that Blank avenue house. How would you like it for my home, my dear?

Mrs. Newed—Oh, it's a pretty place, but you know it is said to be haunted. Mamma says she wouldn't set her foot inside the door for any amount of money.

Mr. Newed—That settles it. I'll close the deal for it the first thing in the morning.—Chicago News.

Arab Music.

Arab music has been described as the singing of a prima donna who has ruptured her voice in trying to sing a duet with herself. Each note starts from somewhere between a sharp and a flat, but does not stop even there and splits up into four or more portions, of which no person can be expected to catch more than one at a time.

To Save Time.

Visitor—No, I won't come in. Could I see Mr. Jones for two minutes?

Servant—What name shall I say, sir?

Visitor—Professor Vondersplinkentootelheimer.

Servant—Och, sure ye'd better step in and bring it wid ye, sorri—Punch.

Not Necessary.

"When you are at a loss for a suitable word, do you ever apply to your wife?"

"No," replied the writer; "I don't have to. Her entire vocabulary is coming my way most of the time."—Chicago Post.

Few Attend Mapleson's Funeral.

London, Nov. 19.—The funeral of Colonel J. H. Mapleson, the operatic impresario, at Highgate, a suburb of London, was a sadly neglected ceremony. A solitary carriage, containing a brother and a brother-in-law of the deceased, followed the hearse. Not one of the great operatic artists either attended or sent a floral token, and only a few private and family friends were present at the interment in Highgate cemetery.

Colonel of Cavalry Retires.

Washington, Nov. 19.—Colonel Henry E. Noyes, Second cavalry, has been retired on account of age. He was appointed to West Point from Maine in 1857. His retirement will promote Lieutenant Colonel Eli L. Huggins, Third cavalry, now in the Philippines, to be colonel of the Second cavalry, and Major Earle, inspector general at Fort Myer, Va., to be lieutenant colonel of the Third cavalry.

London, Nov. 13.—Lady Catherine Jane Carew, grandmother of the present Baron Carew, died at Woodston, Waterford, aged 104. She was a guest at the famous Brussels ball on the eve of the battle of Waterloo and was a noted beauty at the court of Louis Philippe.

CROW WING COUNTY TAX COLLECTIONS

County Auditor Mahlum Has Completed Work on the October Settlement.

DELINQUENT TAXES RUN LOWER

The Total Amount of Taxes Collected for Period Reaches \$20,892.97.

County Auditor Mahlum has just completed his work on the October settlement which covers all the taxes collected, delinquent and current, between June 1 and October 31 and shows the distribution of the total amount to the different funds. The total amount of taxes collected by the county for this period was \$20,892.97 and the amount is divided as follows:

| | |
|-------------------------------|-----------|
| State..... | \$1370.80 |
| County Revenue..... | 2128.19 |
| Poor farm..... | 203.75 |
| Roads and bridges..... | 978.47 |
| Bonds and interest..... | 1806.69 |
| Special R. and B. fund..... | 539.55 |
| Local 1 mill school fund..... | 580.69 |

All the schools in the county receive \$8507.54, of which the Brainerd schools receive \$6694.77, with the exception of the local 1 mill tax or \$580.98, of which the city schools get \$385.37, the schools throughout the county outside the city receiving the balance.

The collection of taxes for the towns and city, there being but one city in the county, is \$4,477.29, of which Brainerd receives \$3,898.51. The total delinquent tax collection for the county for this period amounts to \$6,599.41 and the current taxes amount to \$14,293.56.

The collection of delinquent taxes for this period for Crow Wing county does not show up as large as on former periods of the same time, which naturally is an indication of prosperity; it shows that the delinquent taxes in the county are being pretty well cleaned up.

The total collection of delinquent taxes amounting to \$6,599.41 is divided up as follows:

| | |
|------------------------------|----------|
| For year 1895 and prior..... | \$836.76 |

MACHINIST INJURED.

John Ridgon Falls From An Engine Cab At the Northern Pacific Shops and Injures Skull.

This morning about 10:30 o'clock John Ridgon fell from an engine cab at the Northern Pacific shops and was slightly bruised about the body besides having his skull injured. He was removed to the N. P. Sanitarium, but upon examination it was found that the injuries were not serious.

HORSES HAD TO BE SHOT.

A Team Belonging to T. Barrett Over taken By Switch Engine at Eighth Street Crossing.

Last night about 7:30 o'clock considerable excitement was created about the Eighth street crossing when a switch engine rammed into a wagon and team of horses owned by T. Barrett, the milkman. A young son of Mr. Barrett was driving the team and on the wagon was a large advertising sign of the Lion Clothing Co. The signs were placed on either side of the wagon and the boy sat between them. As he was going over the crossing he did not see the engine coming.

The engine hit the horses, throwing them down and dragging them for a short distance. The wagon was not injured a great deal excepting the front end. The boy jumped and escaped uninjured.

Both horses were badly injured and as they were led from the crossing the blood oozed from the cuts and gashes which made a pitiable sight. Dr. D. M. McDonald was called and in order to save the poor dumb brutes further suffering shot both of them, as they would have been worthless even though the wounds would heal.

DAVIDSON--TANIS.

Nuptial Event Occurred This Morning at the Home of the Bride's Parents On the South Side.

There was a very pretty wedding this morning at the home of Mr. and Mrs. J. L. Tanis, 515, Ninth street south, when their daughter Miss Mamie A. was united in marriage to Mr. George H. Davidson. None but relatives and a few intimate friends of the contracting parties were present. The ceremony was performed amid a beautiful arrangement of flowers, Rev. James Clulow being the officiating clergyman. Mr. Albert Ware was best man and Miss Ester Tracy was maid of honor.

After the ceremony a wedding breakfast was served the bridal party with their relatives and friends partaking.

The bride is a very popular young lady of the city and is well known. The bridegroom is employed in the blacksmith shop at the Northern Pacific shops.

They left this afternoon for Stevens Point, Wis., where they will spend a short honeymoon. They will be "at home" after December 30.

BUTTER MAKERS CONVENTION.

Is Being Held in St. Cloud--There Are Nearly Three Hundred Delegates In Attendance.

The eighth annual convention of the state association of butter and cheese makers was opened at St. Cloud yesterday afternoon. President H. T. Sondergaard, of Litchfield, delivered his annual address, expressing his thanks to the local people for the arrangements for their financial assistance in the way of offering prizes for the best butter exhibits, he said:

"Is this convention to fall back on its friends every year before our annual state convention? Shall we keep on passing the hat around and depend entirely on what we receive, or shall we practically drop the premium fund and let the entrance fees cover the expenses? I have been for some time in favor of a self supporting state butter and cheesemakers' association. The state ought to appropriate about \$1,000 annually to our association."

President Sondergaard complimented the association's organ, the Daily Record in closing.

Senator R. R. Brower extended the welcome to the convention on behalf of the city.

At the session that followed there were reports from Secretary Bennett, the treasurer, and other officers. F. M. Whitman, of Avon, read an interesting paper on "Tempering, Separating and Care of Separators," while "Churning and Washing Butter" was the subject of a discussion led by M. P. Mortenson, of Stockholm.

Governor Van Sant addressed the convention at a meeting at the Davidson opera house last night, and W. P. M. Connell, state dairy and food commissioner, George P. Groat, of Luverne, and W. I. Noyes, of Moline, were on the program. An orchestra and several local singers vary the exercises. The city is handsomely decorated, and local committees are looking after the comfort and pleasure of delegates.

IT WILL COME BACK.

Some Brainerd Residents Have Learned How to Keep it Away.

Your back may not ache very long. But the ache will return shortly. Comes often--stays longer. Unless the kidneys are relieved. Doan's Kidney Pills cure all kidney ills.

Brainerd people endorse them. Mrs. S. Brain, of 125 South Ninth street, says: "Doan's Kidney Pills cannot be spoken of in too high terms. I suffered greatly from my back, the symptoms showing unmistakably that the kidneys were at fault. The secretions from those organs were scanty and caused some pain; the aching in my back was constant and distressing. When my husband brought me Doan's Kidney Pills I was much in need of relief. I used them and in a comparatively short time the pain had disappeared and the improvement in my constitution was general. The kidneys were quickly restored to health and performed their functions naturally."

HUNTER'S QUEER PREDICAMENT

Chief of Police Nelson Gathers Them in on Telegram From Deputy Saunders.

THE TELEGRAM IS AMBIGUOUS.

The Men Are All Prominent Residents of the City of Sumner, Iowa.

When the Minnesota & International arrived in the city from the north this morning Chief Nelson and Officer Derocher placed under arrest three gentlemen who came in on the train, whose homes are at Sumner, Ia. and in all probability they will have quite a time before they get out of the city. The three men's names are B. A. Michener, L. A. Munger and W. Dawson.

They do not know why they were arrested, nor how long they will have to stay in custody of an officer or what the little predicament will cost them. They were arrested on a telegram from Deputy Game Warden Saunders but the telegram did not state for what they were wanted but of course it is presumed that they have been guilty of some infraction of the game law of the state. Both Michener and Munger have non-resident licenses but Dawson did not have one. The men seem to think that this was the reason that they were held up.

Dawson it is claimed has been sick and recently had his arm broken and he was brought along simply to cook for the trio. Dawson states that he did not even bring a gun along.

Chief Nelson has wired Deputy Saunders and in all likelihood he will get some word from him this afternoon. All the three men held are prominent and well known at Sumner, Iowa. Michener states that he lived in this vicinity until about a year ago. He had a farm about fourteen miles from Motley.

MRS. HANNAH NEW DEAD.

Her Soul Takes Flight This Morning at 5 o'clock--Well known In This City.

Mrs. Hannah New, wife of James New, passed to the great beyond this morning, after an illness of but a few days. She died at St. Joseph hospital where she was taken a few days ago having been taken down by sickness as a result of childbirth.

Mrs. New was in her 29th year. She had been a resident of this city for a long time and she has many friends. The remains will be taken to St. Paul where interment will take place. The many friends of the bereaved husband is extended in his hour of affliction.

There will be funeral services tomorrow morning at 9 o'clock at St. Francis church, and all members of the Rosary society are requested to be present. The interment will occur the day after at St. Paul, the funeral services to be held from the residence of C. W. Henry, 431 St. Anthony avenue.

Lost In The Woods.

Harry Witherow, agent of the Humane society of Duluth, and a former resident of Brainerd, owes his life to L. M. Linnell, who resides near Embarras on the Duluth & Iron Range road, says the Duluth News-Tribune. A week ago last Friday Mr. Witherow, who makes frequent trips to the towns north of Duluth in the interests of the humane society, was a visitor at the home of Mr. and Mrs. Linnell. Shortly after dinner the humane agent said that he guessed he would take a trip out in the woods to look at some land he contemplated buying. He said it was in section 28, some two or three miles from the Linnell dwelling. Mr. Linnell told him to not think of it, for being unfamiliar with the mysterious markings of land divisions, he would not understand them. Mr. Witherow got lost and was discovered by Mr. Linnell late the following day, his feet frozen and almost exhausted. He has been threatened with brain fever.

WILL MOVE WITH A RUSH.

When Snow Comes Everything will Move Rather Lively in Lumbering Camps In Northern Minnesota.

With the coming of snow logging operations will commence with a rush in the northern part of the state. The conditions were never more favorable for a big cut of pine. The absence of snow until the ground has frozen deeply has been a great help in the building of camps and logging roads. With a frozen road a light fall of snow is all that is necessary. For the past two weeks the loggers have been busy getting their camps and roads in order, and with the first fall of snow will be ready for active business. Over two thousand men have been on this preparatory work, and at least three thousand more will be needed when active cutting begins.

A. T. Wheelock, a local employment agent, of Bemidji who furnishes many of the loggers with men, gives the following estimate of the number of men to be employed by the following loggers within a radius of fifteen miles of Bemidji this winter.

Blakeley & Farley, twenty camps, 100,000 feet, 2000 men; S. A. Gray, three camps, 15,000,000 feet, 200 men; Taft & Co., two camps 10,000,000 feet, 120 men; Clearwater Logging Co., four camps, 20,000, ft. 200 men; Irwin & O'Brien, six camps 20,000,000 feet, 300 men; Brainerd Lumber Co., four camps, 30,000,000 feet, 500 men; Carver Bros., three camps, 15,000,000 feet, 250 men; S. A. Bagley, two camps, 10,000,000 feet, 250 men; T. B. Walker, eight camps, 50,000,000 feet; 1000 men; Halvorson & Richards, 20,000,000 feet, 300 men; Thief River Logging Co., three camps 20,000,000 feet and 300 men.

But the loggers are free to confess that the amount of logging done must depend largely upon the labor market. They are offering good wages, and so far have secured men as needed. With good steady men wonders will be accomplished in the pine woods this winter. Wages at present are as follows: For common labor, \$26 and up; teamsters \$35 to \$45; sawyers, \$30 to \$35; cooks, \$40 to \$50; blacksmiths, \$40 to \$60. Besides the usual demand for lumberjacks a growing demand for tie-makers and laborers upon the two railroads under construction in this country threatens to cause a shortage in the labor market.

COURT AT WALKER.

Ten Civil and Five Criminal Cases on the Calendar For Trial Before Judge McClenahan.

The grind in the district court at Walker before Judge McClenahan is now on in force. There are ten civil and five criminal cases. Of the latter, there are two for the grand jury. One is that of Angus McDonald, who killed "Bulldog" Regan, in Cass Lake, last spring. Regan had been the terror of the northern part of Minnesota five years. He had abused McDonald on divers occasions, and the morning he was killed had resumed this pastime. McDonald had an axe and struck Regan on either side of the head, leaving two terrible wounds, from which he never recovered. McDonald is a half-witted fellow, who has been an inmate of the insane asylum at Fergus Falls.

The other murder case is that of Sol Williams, who shot James Morris at Vermillion, in the eastern part of the county, last spring. Morris was a tenant of Williams, the latter having given him the use of his house at Vermillion till he could procure another, making no charge. Williams says he was abused by Morris and his wife and that they had repeatedly threatened to take his life.

On the morning of the murder, Williams was preparing to go to Grand Rapids and the Morris family again began to threaten him, and Morris chased him with a knife. Williams went to the house and procured his rifle. He returned to his boat, and was preparing to take his departure, when Morris attacked him with a knife. Williams grabbed his rifle and fired a bullet into Morris's body, following it with two more shots as Morris fell. Williams gave himself up to the sheriff of Itasca county, and at a preliminary hearing was bound over.

HEATING PLANTS.

Poison by Absorption.

The slow absorption of many poisons changes in some more or less modified form the complexion, but arsenic and ammonia show their effect about as quickly as any. The popular belief that arsenic clears the complexion has led many silly women to kill themselves with it in small, continued doses.

It produces a waxy, ivorylike appearance of the skin during a certain stage of the poisoning, but its terrible after effects have become too well known to make it of common use as a cosmetic.

The effects of ammonia upon the complexion are directly opposite from that of arsenic. The first symptoms of ammonia poisoning which appears among those who work in ammonia factories is a discoloration of the skin of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance. With people who take ammonia into their systems in small doses, as with their water and food, these striking symptoms do not appear so soon. The only effect of the poison that is visible for a time is a general unwholesomeness and sallowness of the complexion.

Indigested Food.

The recurrence of the flavor of food for some time after eating is always an indication, writes a physician in a medical journal, that the food is not being properly digested. "I can taste it," we say after eating canned fruits and vegetables preserved by adding salicylic acid or formaldehyde, substances that embalm food against the digestive juices as completely as they protect it from the microbes of the outer air. And "I can taste it" would probably be the report of one who had made a hearty meal on a turkey kept several months in cold storage. "A man trying to live on such meat would simply starve to death or die of blood poisoning," adds the physician.

He does not fail to remind us that the storage warehouse is generally a convenience and a benefit and only when misused a source of danger. But neither he nor any one else could find a good word to say for manufacturers who put slow poison into a food product. The fitting punishment for them would be to give them nothing to eat but their own canned stuff.

The Bird That Flies Longest.

Mr. J. Lancaster, naturalist, who spent five years on the west coast of Florida studying birds there, came to the conclusion that of all the feathered tenants of the air the frigate bird can fly the longest without resting. He has seen one flying for a whole week night and day without repose.

The frigate bird can feed, collect materials for its nest and even sleep on the wing. Apparently its wings can be controlled automatically, without the power of its will, and it probably adapts itself to take advantage of the upward or bearing force of the wind. The spread of the frigate bird's wing is great, and it can fly at a speed of ninety-six miles an hour, without seeming to flap its wings much.

The albatross--that "king of the high seas," as it has been called--is larger than the frigate bird, but if it follows a vessel for four or five days it has to rest on a rock or on the ship itself.

An Impudent Dog.

One day Ben Nash joined some fine ladies in a grove and, asking one of them who was crooked whence she came, she replied, "Straight from London."

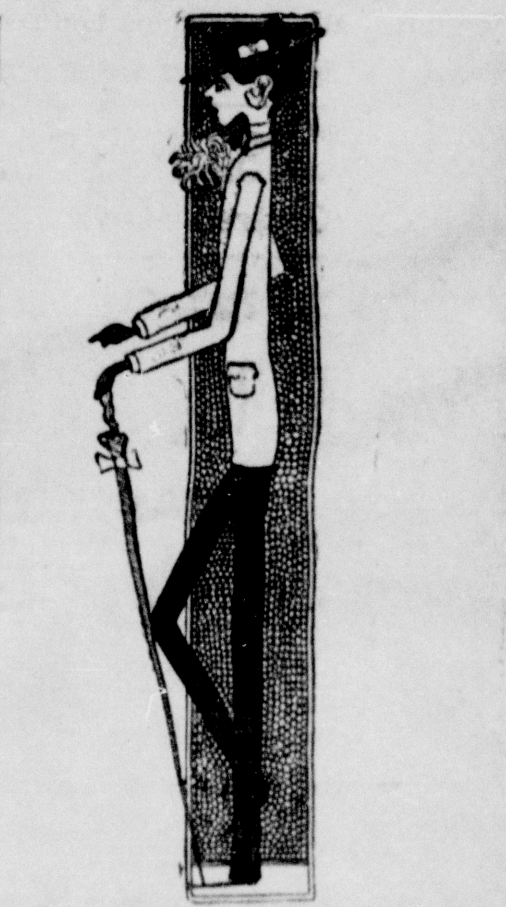

"Confound me, madam," said he, "then you must have been warped by the way!"

She soon, however, had ample revenge. The following evening he joined her company and, with a sneer and a bow, asked her if she knew her catechism and could tell him the name of Tobit's dog.

"His name, sir, was Nash," replied the lady, "and an impudent dog he was!"

Schwantes Given Life Imprisonment.

Wausau, Wis., Nov. 12.--Frank Schwantes, accused of murdering the Klokow couple and burning their home and bodies, was given a life sentence in the state prison at Waupun. The prisoner broke down and the women spectators became hysterical when the sentence was read.

It's a Long Subject,

but we're going to tell you very little about it. For thirty-six years--nearly thirty-seven--The Royal Tailors of Chicago have been telling people how to dress well, and at the same time cut the price.

But they are better dressers than they are tellers. They are not only prepared to show "The Man From Missouri," but they are today showing the men, and young men, and boys of all America how garments can be made-to-measure--made-to-fit--made stylishly, shapely, and satisfactorily at about one-half to two-thirds as much as other tailors usually charge.

If you could be satisfied of this you would very promptly decide to

"Pay Less and Dress Better."

wouldn't you? Well, we can satisfy you. We have the exclusive local sale of Royal Tailoring. We carry the complete Royal line, and are showing over five hundred patterns in beautiful suitings, and overcoatings this season. Every reader of this paper is invited to call--in fact ought to call, and see these goods, and learn the prices.

LINNEMAN & CARLSON.

Learning the Game.

When that great plainsman J. B. Hickok, better known as "Wild Bill," came east on what he called a "red-hot trail to learn something," he stopped one Saturday night at a hotel in Portland, Me.

When he went to his room to seek rest, he found that the adjoining room was occupied by a company of fashionable and rich young sports of Portland who, it did not take him long to discover, were playing an interesting game of poker for high stakes. In vain did he try to sleep. He could not do so, and after an hour arose, dressed himself and knocked on the door.

Instantly all was silent; but he inquired politely that as they would not let him sleep would they let him come in and watch the game?

They did so and were impressed with the appearance of the man and asked if he would join them.

"I will if you will post me; but, you know, I'm a tenderfoot east," he replied.

They were willing to "post" him, and, playing awkwardly, making blunders and asking questions, but seemingly greatly interested, he continued to play until daylight, when he put his winnings, some \$1,500, in his pocket. "I thank you, gentlemen," he said, "and I'm rather glad you would not let me sleep. I'll be here until tomorrow, so keep me awake some more."

But the players did not appear again. --Detroit Free Press.

All the schools in the county receive \$8507.54, of which the Brainerd schools receive \$6694.77, with the exception of the local 1 mill tax or \$580.98, of which the city schools get \$385.37, the schools throughout the county outside the city receiving the balance.

The collection of taxes for the towns and city, there being but one city in the county, is \$4,477.29, of which Brainerd receives \$3,898.51. The total delinquent tax collection for the county for this period amounts to \$6,599.41 and the current taxes amount to \$14,293.56.

The collection of delinquent taxes for this period for Crow Wing county does not show up as large as on former periods of the same time, which naturally is an indication of prosperity; it shows that the delinquent taxes in the county are being pretty well cleaned up.

MACHINIST INJURED.

John Ridgon Falls From An Engine Cab At the Northern Pacific Shops and Injures Skull.

This morning about 10:30 o'clock John Ridgon fell from an engine cab at the Northern Pacific shops and was slightly bruised about the body besides having his skull injured. He was removed to the N. P. Sanitarium, but upon examination it was found that the injuries were not serious.

HORSES HAD TO BE SHOT.

A Team Belonging to T. Barrett Overaken By Switch Engine at Eighth Street Crossing.

Last night about 7:30 o'clock considerable excitement was created about the Eighth street crossing when a switch engine rammed into a wagon and team of horses owned by T. Barrett, the milkman. A young son of Mr. Barrett was driving the team and on the wagon was a large advertising sign of the Lion Clothing Co. The signs were placed on either side of the wagon and the boy sat between them. As he was going over the crossing he did not see the engine coming.

The engine hit the horses, throwing them down and dragging them for a short distance. The wagon was not injured a great deal excepting the front end. The boy jumped and escaped uninjured.

Both horses were badly injured and as they were led from the crossing the blood oozed from the cuts and gashes which made a pitiful sight. Dr. D. M. McDonald was called and in order to save the poor dumb brutes further suffering shot both of them, as they would have been worthless even though the wounds would heal.

DAVIDSON--TANIS.

Nuptial Event Occurred This Morning at the Home of the Bride's Parents On the South Side.

There was a very pretty wedding this morning at the home of Mr. and Mrs. J. L. Tanis, 515, Ninth street south, when their daughter Miss Mamie A. was united in marriage to Mr. George H. Davidson. None but relatives and a few intimate friends of the contracting parties were present. The ceremony was performed amid a beautiful arrangement of flowers, Rev. James Clulow being the officiating clergyman. Mr. Albert Ware was best man and Miss Ester Tracy was maid of honor.

After the ceremony a wedding breakfast was served the bridal party with their relatives and friends partaking.

The bride is a very popular young lady of the city and is well known. The bridegroom is employed in the blacksmith shop at the Northern Pacific shops.

They left this afternoon for Stevens Point, Wis., where they will spend a short honeymoon. They will be "at home" after December 30.

BUTTER MAKERS CONVENTION.

Is Being Held in St. Cloud--There Are Nearly Three Hundred Delegates In Attendance.

The eighth annual convention of the state association of butter and cheese makers was opened at St. Cloud yesterday afternoon. President H. T. Sondergaard, of Litchfield, delivered his annual address, expressing his thanks to the local people for the arrangements for their financial assistance in the way of offering prizes for the best butter exhibits, he said:

"Is this convention to fall back on its friends every year before our annual state convention? Shall we keep on passing the hat around and depend entirely on what we receive, or shall we practically drop the premium fund and let the entrance fees cover the expenses? I have been for some time in favor of a self supporting state butter and cheesemakers' association. The state ought to appropriate about \$1,000 annually to our association."

President Sondergaard complimented the association's organ, the Daily Record in closing.

Senator R. R. Brower extended the welcome to the convention on behalf of the city.

At the session that followed there were reports from Secretary Bennett, the treasurer, and other officers. F. M. Whitman, of Avon, read an interesting paper on "Tempering, Separating and Care of Separators," while "Churning and Washing Butter" was the subject of a discussion led by M. P. Mortenson, of Stockholm.

Governor Van Sant addressed the convention at a meeting at the Davidson opera house last night, and W. P. M. Connell, state dairy and food commissioner; George P. Groat, of Luverne, and W. I. Noyes, of Moline, were on the program. An orchestra and several local singers vary the exercises. The city is handsomely decorated, and local committees are looking after the comfort and pleasure of delegates.

IT WILL COME BACK.

Some Brainerd Residents Have Learned How to Keep it Away.

Your back may not ache very long. But the ache will return shortly. Comes oftener--stays longer. Unless the kidneys are relieved. Doan's Kidney Pills cure all kidney ills.

Brainerd people endorse them.

Mrs. S. Brain, of 125 South Ninth street, says: "Doan's Kidney Pills cannot be spoken of in too high terms. I suffered greatly from my back, the symptoms showing unmistakably that the kidneys were at fault. The secretions from those organs were scanty and caused some pain; the aching in my back was constant and distressing. When my husband brought me Doan's Kidney Pills I was much in need of relief. I used them and in a comparatively short time the pain had disappeared and the improvement in my constitution was general. The kidneys were quickly restored to health and performed their functions naturally."

HUNTER'S QUEER PREDICAMENT

Chief of Police Nelson Gathers Them in on Telegram From Deputy Saunders.

THE TELEGRAM IS AMBIGUOUS.

The Men Are All Prominent Residents of the City of Sumner, Iowa.

When the Minnesota & International arrived in the city from the north this morning Chief Nelson and Officer Derocher placed under arrest three gentlemen who came in on the train, whose homes are at Sumner, Ia. and in all probability they will have quite a time before they get out of the city. The three men's names are B. A. Michener, L. A. Munger and W. Dawson.

They do not know why they were arrested, nor how long they will have to stay in custody of an officer or what the little predicament will cost them. They were arrested on a telegram from Deputy Game Warden Saunders but the telegram did not state for what they were wanted but of course it is presumed that they have been guilty of some infraction of the game law of the state. Both Michener and Munger have non-resident licenses but Dawson did not have one. The men seem to think that this was the reason that they were held up.

Dawson it is claimed has been sick and recently had his arm broken and he was brought along simply to cook for the trio. Dawson states that he did not even bring a gun along.

Chief Nelson has wired Deputy Saunders and in all likelihood he will get some word from him this afternoon. All the three men held are prominent and well known at Sumner, Iowa. Michener states that he lived in this vicinity until about a year ago. He had a farm about fourteen miles from Motley.

MRS. HANNAH NEW DEAD.

Her Soul Takes Flight This Morning at 5 o'clock--Well known in This City.

Mrs. Hannah New, wife of James New, passed to the great beyond this morning, after an illness of but a few days. She died at St. Joseph hospital where she was taken a few days ago having been taken down by sickness as a result of childbirth.

Mrs. New was in her 29th year. She had been a resident of this city for a long time and she has many friends. The remains will be taken to St. Paul where interment will take place. The many friends of the bereaved husband is extended in his hour of affliction.

There will be funeral services tomorrow morning at 9 o'clock at St. Francis church, and all members of the Rosary society are requested to be present. The interment will occur the day after at St. Paul, the funeral services to be held from the residence of C. W. Henry, 431 St. Anthony avenue.

Lost In The Woods.

Harry Witherow, agent of the Humane society of Duluth, and a former resident of Brainerd, owes his life to L. M. Linnell, who resides near Embarras on the Duluth & Iron Range road, says the Duluth News-Tribune. A week ago last Friday Mr. Witherow, who makes frequent trips to the towns north of Duluth in the interests of the humane society, was a visitor at the home of Mr. and Mrs. Linnell. Shortly after dinner the humane agent said that he guessed he would take a trip out in the woods to look at some land he contemplated buying. He said it was in section 28, some two or three miles from the Linnell dwelling. Mr. Linnell told him to not think of it, for being unfamiliar with the mysterious markings of land divisions, he would not understand them. Mr. Witherow got lost and was discovered by Mr. Linnell late the following day, his feet frozen and almost exhausted. He has been threatened with brain fever.

WILL MOVE WITH A RUSH.

When Snow Comes Everything will Move Rather Lively in Lumbering Camps In Northern Minnesota.

With the coming of snow logging operations will commence with a rush in the northern part of the state. The conditions were never more favorable for a big cut of pine. The absence of snow until the ground has frozen deeply has been a great help in the building of camps and logging roads. With a frozen road a light fall of snow is all that is necessary. For the past two weeks the loggers have been busy getting their camps and roads in order, and with the first fall of snow will be ready for active business. Over two thousand men have been on this preparatory work, and at least three thousand more will be needed when active cutting begins.

A. T. Wheelock, a local employment agent, of Bemidji who furnishes many of the loggers with men, gives the following estimate of the number of men to be employed by the following loggers within a radius of fifteen miles of Bemidji this winter.

Blakeley & Farley, twenty camps, 100,000 feet, 2000 men; S. A. Gray, three camps, 15,000,000 feet, 200 men; Taft & Co., two camps 10,000,000 feet, 120 men; Clearwater Logging Co., four camps, 20,000 ft. 200 men; Irwin & O'Brien, six camps 20,000,000 feet, 300 men; Brainerd Lumber Co., four camps, 30,000,000 feet, 500 men; Carver Bros., three camps, 15,000,000 feet, 250 men; S. A. Bagley, two camps, 10,000,000 feet, 250 men; T. B. Walker, eight camps, 50,000,000 feet, 1000 men; Halvorson & Richards, 20,000,000 feet, 300 men; Thief River Logging Co., three camps 20,000,000 feet and 300 men.

But the loggers are free to confess that the amount of logging done must depend largely upon the labor market. They are offering good wages, and so far have secured men as needed. With good steady men wonders will be accomplished in the pine woods this winter. Wages at present are as follows: For common labor, \$26 and up; teamsters \$35 to \$45; sawyers, \$30 to \$35; cooks, \$40 to \$50; blacksmiths, \$40 to \$60. Besides the usual demand for lumberjacks a growing demand for tie-makers and laborers upon the two railroads under construction in this country threatens to cause a shortage in the labor market.

COURT AT WALKER.

Ten Civil and Five Criminal Cases on the Calendar For Trial Before Judge McClenahan.

The grind in the district court at Walker before Judge McClenahan is now on in force. There are ten civil and five criminal cases. Of the latter, there are two for the grand jury. One is that of Angus McDonald, who killed "Bulldog" Regan, in Cass Lake, last spring. Regan had been the terror of the northern part of Minnesota five years. He had abused McDonald on divers occasions, and the morning he was killed had resumed this pastime. McDonald had an axe and struck Regan on either side of the head, leaving two terrible wounds, from which he never recovered. McDonald is a half-witted fellow, who has been an inmate of the insane asylum at Fergus Falls.

The other murder case is that of Sol Williams, who shot James Morris at Vermillion, in the eastern part of the county, last spring. Morris was a tenant of Williams, the latter having given him the use of his house at Vermillion till he could procure another, making no charge. Williams says he was abused by Morris and his wife and that they had repeatedly threatened to take his life.

On the morning of the murder, Williams was preparing to go to Grand Rapids and the Morris family again began to threaten him, and Morris chased him with a knife. Williams went to the house and procured his rifle. He returned to his boat, and was preparing to take his departure, when Morris attacked him with a knife. Williams grabbed his rifle and fired a bullet into Morris's body, following it with two more shots as Morris fell. Williams gave himself up to the sheriff of Itasca county, and at a preliminary hearing was bound over.

HEATING PLANTS.

Poison by Absorption.

The slow absorption of many poisons changes in some more or less modified form the complexion, but arsenic and ammonia show their effect about as quickly as any. The popular belief that arsenic clears the complexion has led many silly women to kill themselves with it in small, continued doses.

It produces a waxy, ivorylike appearance of the skin during a certain stage of the poisoning, but its terrible after effects have become too well known to make it of common use as a cosmetic.

The effects of ammonia upon the complexion are directly opposite from that of arsenic. The first symptoms of ammonia poisoning which appears among those who work in ammonia factories is a discoloration of the skin of the nose and forehead. This gradually extends over the face until the complexion has a stained, blotched and unsightly appearance. With people who take ammonia into their system in small doses, as with their water and food, these striking symptoms do not appear so soon. The only effect of the poison that is visible for a time is a general unwholesomeness and sallowness of the complexion.

Undigested Food.

The recurrence of the flavor of food for some time after eating is always an indication, writes a physician in a medical journal, that the food is not being properly digested. "I can taste it," we say after eating canned fruits and vegetables preserved by adding salicylic acid or formaldehyde, substances that embalm food against the digestive juices as completely as they protect it from the microbes of the outer air. And "I can taste it" would probably be the report of one who had made a hearty meal on a turkey kept several months in cold storage. "A man trying to live on such meat would simply starve to death or die of blood poisoning," adds the physician.

He does not fail to remind us that the storage warehouse is generally a convenience and a benefit and only when misused a source of danger. But neither he nor any one else could find a good word to say for manufacturers who put slow poison into a food product. The fitting punishment for them would be to give them nothing to eat but their own canned stuff.

The Bird That Flies Longest.

Mr. J. Lancaster, naturalist, who spent five years on the west coast of Florida studying birds there, came to the conclusion that of all the feathered tenants of the air the frigate bird can fly the longest without resting. He has seen one flying for a whole week night and day without repose.

The frigate bird can feed, collect materials for its nest and even sleep on the wing. Apparently its wings can be controlled automatically, without the power of its will, and it probably adapts itself to take advantage of the upward or bearing force of the wind. The spread of the frigate bird's wing is great, and it can fly at a speed of ninety-six miles an hour, without seeming to flap its wings much.

The albatross--that "king of the high seas," as it has been called--is larger than the frigate bird, but if it follows a vessel for four or five days it has to rest on a rock or on the ship itself.

An Impudent Dog.

One day Ben Nash joined some fine ladies in a grove and, asking one of them who was crooked whence she came, she replied, "Straight from London."

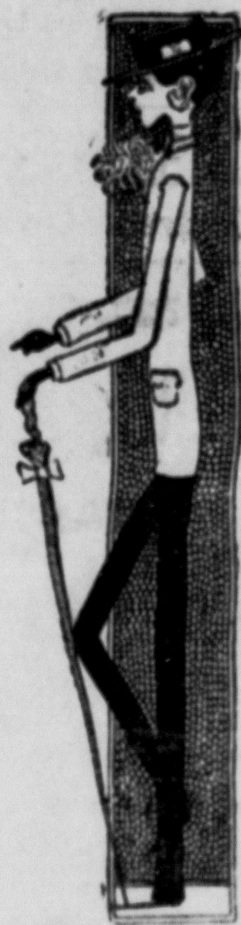

"Confound me, madam," said he, "then you must have been warped by the way."

She soon, however, had ample revenge. The following evening he joined her company and, with a sneer and a bow, asked her if she knew her catechism and could tell him the name of Tobit's dog.

"His name, sir, was Nash," replied the lady, "and an impudent dog he was."

Schwantes Given Life Imprisonment.

Waupun, Wis., Nov. 12.--Frank Schwantes, accused of murdering the Klokow couple and burning their home and bodies, was given a life sentence in the state prison at Waupun. The prisoner broke down and the women spectators became hysterical when the sentence was read.

It's a Long Subject,

but we're going to tell only very little about it. For thirty-six years--nearly thirty-seven--The Royal Tailors of Chicago have been telling people how to dress well, and at the same time cut the price.

But they are better than they are talked. They are not only prepared to show "The Man From Missouri," but they are today showing the men, and young men, and boys of all America how garments can be made-to-measure--made-to-fit--made stylishly, shapely, and satisfactorily at about one-half to two-thirds as much as other tailors usually charge.

If you could be satisfied of this you would very promptly decide to

"Pay Less and Dress Better."

wouldn't you? Well, we can satisfy you. We have the exclusive local sale of Royal Tailoring. We carry the complete Royal line, and are showing over five hundred patterns in beautiful suitings, and overcoatings this season. Every reader of this paper is invited to call--in fact, right to call, and see these goods, and learn the price.

LINNEHAN & CARLSON.

Learning the Game.

When that great plainsman J. B. Hickok, better known as "Wild Bill," came east on what he called a "red-hot trail to learn something," he stopped one Saturday night at a hotel in Portland, Me.

When he went to his room to seek rest, he found that the adjoining room was occupied by a company of fashionable and rich young sports of Portland who, it did not take him long to discover, were playing an interesting game of poker for high stakes. In vain did he try to sleep. He could not do so, and after an hour arose, dressed himself and knocked on the door.

Instantly all was silent; but he inquired politely that as they would not let him sleep would they let him come in and watch the game?

They did so and were impressed with the appearance of the man and asked if he would join them.

"I will if you will post me; but, you know, I'm a tenderfoot east," he replied.

They were willing to "post" him, and, playing awkwardly, making blunders and asking questions, but seemingly greatly interested, he continued to play until daylight, when he put his winnings, some \$1,500, in his pocket.

"I thank you, gentlemen," he said, "and I'm rather glad you would not let me sleep. I'll be here until tomorrow, so keep me awake some more."

But the players did not appear again.

CONVENTION ADJOURNS

BIG RECIPROCITY MEETING AT WASHINGTON FINISHES ITS WORK.

RESOLUTIONS ARE ADOPTED

Views of the Members on Various Matters Set Forth—Creation of a Department of Commerce and Industries Recommended, Also a Reciprocity Commission—Committee Submits Report to President.

Washington, Nov. 21.—The national reciprocity convention has finished its work and adjourned sine die. Several important resolutions embodying the views of the convention on reciprocity and other matters were adopted. They provide as follows:

"Resolved, That this convention recommends to congress the maintenance of the principle of protection for the home market and to open up by reciprocity opportunities for increased foreign trade by special modifications of the tariff in special cases, but only where it can be done without injury to any of our home interests of manufacture, commerce or farming.

"Resolved, That in order to ascertain the influence of any proposed treaty on our home interests this convention recommends to congress the establishment of a reciprocity commission, which shall be charged with the duty of investigating the condition of any industry and reporting the same to the executive and to congress for guidance in negotiating reciprocal trade agreements.

"Resolved, This convention recommends to and requests of congress that a new department be created to be called the department of commerce and industries, the head of which shall be a member of the president's cabinet.

"Resolved, That a reciprocity commission be created as a bureau of this new department."

A representative committee from the convention during the day submitted to President Roosevelt the resolutions adopted by the convention. The president assured them in general terms that he had given considerable attention to the subject and he hoped his attitude would be satisfactory to them. But he did not particularize.

THE CAPTURE OF SOJOTON.

Detailed Account of the Taking of the Samar Stronghold.

Manila, Nov. 21.—Major L. W. T. Waller of the marine corps has cabled Rear Admiral Rodgers at Manila a full and detailed account of the attack Nov. 7 by the men of his command upon the rebel stronghold of Sojoton, near Basey, island of Samar. The insurgent camps were destroyed, 40 bamboo cannons were captured and much rice and other stores were destroyed. The rebel stronghold was almost impregnable. The trails leading to it were lined with poisoned spears sticking from the ground and were filled with hidden pitfalls. Major Waller's men attacked the enemy unexpectedly. To do this they had to scale a cliff 200 feet high. They climbed barefooted over bamboo ladders. At the top they found boulders piled ready to precipitate upon an attacking party. Major Waller says he was personally not present at the action. He praises Captain David D. Porter and Captain Hiram I. Bearss for their splendid work and says too much praise cannot be given the marines themselves, whose behavior he characterizes as heroic in every respect. The major considers the scaling of cliffs 200 feet high as a new feature of warfare and says such men would be able to do anything anywhere. Thirty of the enemy were killed. The marines sustained a few trifling wounds.

Rear Admiral Rodgers has replied to Major Waller congratulating him upon this successful action by his command.

ACCOUNTS DIFFER.

Stories of Queen Draga's Assassination or Suicide From Belgrade.

Vienna, Nov. 21.—An unconfirmed report has reached Vienna that Queen Draga has been shot at in the streets of Belgrade.

The Neule Freie Presse and other Viennese newspapers published voluminous accounts, one declaring the Serbian queen was assassinated, another that she was wounded and a third that she committed suicide. Reports from other sources denied the report that Queen Draga was killed and assert that the rumor of her death was caused by a hysterical scene with King Alexander. There is no reliable information on the subject here, but it is believed that a serious crisis exists in Belgrade.

Paris, Nov. 21.—According to a dispatch from Vienna to The Echo de Paris an attempt has been made to assassinate the queen of Serbia, three shots having been fired at her while she was driving near Semlin. A dispatch to the same paper from Belgrade gives a rumor that the queen attempted suicide at Semlin.

RUN THE NEGROES OUT.

Colored Homesteaders Being Ejected in Oklahoma.

Guthrie, O. T., Nov. 21.—Notwithstanding the announcement of United States Attorney Horace Speed that he will have cancelled the homestead entry of every man who makes an attempt to eject a colored homesteader from his claim complaints of such action against colored men are filed daily with the United States marshal asking protection for negroes who drew claims in the recent government land lottery. "More than 100 colored homesteaders have been run out of that country."

GIVES HIMSELF UP.

An Englishman Confesses Numerous Forgeries to Indianapolis Police.

Indianapolis, Nov. 21.—J. Verall, an Englishman, walked into the police station here, and, after confessing that he had committed 20 or more forgeries in various parts of the country, said he wanted to give himself up. The forgeries, he said, aggregated \$12,000 and were committed under various aliases in Cincinnati, Evansville, Indianapolis, New York, Philadelphia, Boston, Peoria, Ill., Chicago, Halifax, N. S., Toronto, Ont., and Dayton, O. The forgeries have for the most part been in small amount. Verall is 38 years of age and says he has been traveling since his wife left him at Cincinnati.

"Call me a blackguard," he said, "I have lost all claim to respectability. I am related to the old English family of Neville and that is why I sometimes assumed that name." He refused to give further details.

HORSE THIEVES CAUGHT.

Sheriff Breaks Up a Bad Gang at La Crosse, Wis.

La Crosse, Wis., Nov. 21.—Sheriff Barber and posse have unearthed a rendezvous of criminals near Genoa, just south of this city. As a result of the raid on the camp John Butterfield and Will Townsend are behind the bars, the remainder of the gang having escaped. Butterfield is charged with larceny, but will be tried, released and rearrested by the sheriff of Vernon county charged with cattle stealing. It is alleged that Butterfield and his confederates are the men who have stolen hundreds of head of cattle in Vernon and La Crosse counties during the summer.

Alabama's Constitution Carries.

Montgomery, Ala., Nov. 21.—The governor, secretary of state and attorney general opened and counted the vote on the new constitution during the day. The result shows a majority of 28,429 for the constitution. The governor will issue his proclamation within a few days and 10 days thereafter the new law will go into effect.

Will Not Call in American Aid.

Ottawa, Ont., Nov. 21.—At the cabinet meeting the government decided not to grant the request of the shipper of Montreal that the coasting laws in the upper lakes be amended so as to permit of American boats trading for the remainder of the season from Canadian ports.

Will Be Sent to the Orient.

Washington, Nov. 21.—Commander S. A. Staunton, flag secretary to Rear Admiral Sampson during the Spanish war, has been ordered to assume command of the United States steamship Rainbow. The Rainbow is now being fitted at New York for special service on the Asiatic station.

Want Oleomargarine Taxed.

Lewistown, Me., Nov. 21.—The National Grange has adopted resolutions urging congress to put a tax of 10 cents a pound on oleomargarine and all substitutes for dairy butter and in favor of a universal peace congress in connection with the exposition at Charleston.

ARE ON A STRIKE.

Brakemen Out Because of Discharge of Superintendent.

New York, Nov. 20.—Nearly 800 men, comprising the entire force of brakemen, freight handlers and switchmen of the New York division of the New York, New Haven and Hartford railroad, have gone on strike. The reputed cause of the strike is the discharge of the assistant superintendent, Robert Thurbush of the Mott Haven yards. The strike also materially affects the tugboat and float system of the railroads in this city. John H. Thurbush, general yardmaster, and a brother of R. Thurbush, said he did not know the cause of his brother's dismissal.

HAVE MURDERER SURROUNDED.

The Officers Pursuing Mathis Send for Larger Posse.

Oxford, Miss., Nov. 20.—The officers who are pursuing Mathis, the alleged illit distiller, who is charged with murdering two deputy United States marshals Sunday, have sent a messenger to Oxford asking for a posse of 35 or more armed citizens to assist in the capture of the fugitive. The officers say they have him surrounded in a swamp, but before making an attack they desire reinforcements. A posse has just left for the scene and a battle is expected before morning. The swamp in which Mathis is hiding is 20 miles from Oxford.

An American Building for London.

London, Nov. 20.—An Anglo-American syndicate, including Sir Charles Rivers Wilson, the Earl of Kintore, Earl Grey, F. B. Elliser of New York, George Cornwallis-West and others, has applied to the London county council for a lease for 999 years of a site on the north side of the Strand with a frontage of 750 feet and with still longer frontage on the Strand for the erection of an office building on American lines. The structure, which will cost £2,000,000, will be the largest and handsomest of its kind in the world.

HANNA DISAPPROVES.

Local Monuments to McKinley Will Distract From the One at Canton.

Cleveland, Nov. 19.—In an interview Senator Hanna, vice president of the McKinley Monument association, said he did not approve the plan to use the surplus of \$5,000 in the hands of the Grand Army people to erect a bronze statue to McKinley in Cleveland. He thinks these local monuments will detract from the funds necessary for the national monument at Canton. Senator Hanna discouraged the erection of monuments at Cincinnati, Toledo and Columbus on the same grounds. "I notice," continued the senator, "that the Washington Memorial Arch association has decided to go ahead with the project of erecting an arch for McKinley in Washington without waiting for the national monument. It is unfortunate that they insist upon going ahead and I know that I voice the opinions of all of Mr. McKinley's personal friends and admirers when I say it is a grave mistake to have so many projects on foot until ours is assured success. We feel that the testimonial of the people of the country should be where his remains are."

ARRANGE AN ARMISTICE.

Too Wet for Colombian and Venezuelan Troops to Fight.

Maracaibo, Nov. 19.—In view of the heavy rains in the Cordillera an armistice of three weeks between the Venezuelan and Colombian troops on the frontier has been arranged. The town of Cucuta (in Colombia near the Venezuelan frontier) is inundated. The floods have caused great destruction and a number of lives have been lost. In some places the railroad from the head of Maracaibo lake to the interior is several yards under water. General Uribe-Uribe has been called to Caracas and has gone to the island of Curacao on his way there.

Willemstad, Curacao, Nov. 19.—Owing to the very strict censorship maintained in Venezuela it is impossible to learn details of the Venezuelan-Colombian armistice. Because of the flooded condition of the frontier news of this agreement comes out slowly. It is reported this armistice was also signed between the Colombian Liberal revolutionists and the Colombian government.

OPENING OF PARLIAMENT.

Event Will Occur a Week Earlier Than Intended.

London, Nov. 19.—The original intention was to reopen parliament Jan. 23, the date of the expiration of the mourning of the court for Queen Victoria, so as to enable King Edward to be present with full state ceremony. It is now understood, however, that financial needs will compel an opening a week earlier.

In a letter conveying an expression of his thanks for a vote of confidence in the policy of the government, Lord Salisbury administrators the following characteristic rebuke to pro-Boers in Great Britain: "We need such encouragement for England is, I believe, the only country in which during a great war eminent men write and speak publicly, as if they belonged to the enemy."

CONVENTION ADJOURNS

**BIG RECIPROCITY MEETING AT
WASHINGTON FINISHES
ITS WORK.**

RESOLUTIONS ARE ADOPTED

Views of the Members on Various
Matters Set Forth—Creation of a
Department of Commerce and Industries Recommended, Also a Reciprocity Commission—Committee
Submits Report to President.

Washington, Nov. 21.—The national reciprocity convention has finished its work and adjourned sine die. Several important resolutions embodying the views of the convention on reciprocity and other matters were adopted. They provide as follows:

"Resolved, That this convention recommends to congress the maintenance of the principle of protection for the home market and to open up by reciprocity opportunities for increased foreign trade by special modifications of the tariff in special cases, but only where it can be done without injury to any of our home interests of manufacture, commerce or farming."

"Resolved, That in order to ascertain the influence of any proposed treaty on our home interests this convention recommends to congress the establishment of a reciprocity commission, which shall be charged with the duty of investigating the condition of any industry and reporting the same to the executive and to congress for guidance in negotiating reciprocal trade agreements."

"Resolved, This convention recommends to congress that a new department be created to be called 'the department of commerce and industries,' the head of which shall be a member of the president's cabinet."

"Resolved, That a reciprocity commission be created as a bureau of this new department."

A representative committee from the convention during the day submitted to President Roosevelt the resolutions adopted by the convention. The president assured them in general terms that he had given considerable attention to the subject and he hoped his attitude would be satisfactory to them. But he did not particularize.

THE CAPTURE OF SOJOTON.

Detailed Account of the Taking of the Samar Stronghold.

Manila, Nov. 21.—Major L. W. T. Waller of the marine corps has cabled Rear Admiral Rodgers at Manila a full and detailed account of the attack Nov. 7 by the men of his command upon the rebel stronghold of Sojoton, near Basey, island of Samar. The insurgent camps were destroyed, 40 bamboo cannons were captured, and much rice and other stores were destroyed. The rebel stronghold was almost impregnable. The trails leading to it were lined with poisoned spears sticking from the ground and were filled with hidden pitfalls. Major Waller's men attacked the enemy unexpectedly. To do this they had to scale a cliff 200 feet high. This they climbed barefooted over bamboo ladders. At the top they found boulders piled ready to precipitate upon an attacking party. Major Waller says he was personally not present at the action. He praises Captain David D. Porter and Captain Hiram I. Bearss for their splendid work and says too much praise cannot be given the marines themselves, whose behavior he characterizes as heroic in every respect. The major considers the scaling of cliffs 200 feet high as a new feature of warfare and says such men would be able to do anything anywhere. Thirty of the enemy were killed. The marines sustained a few trifling wounds.

Rear Admiral Rodgers has replied to Major Waller congratulating him upon this successful action by his command.

ACCOUNTS DIFFER.

Stories of Queen Draga's Assassination or Suicide From Belgrade.

Vienna, Nov. 21.—An unconfirmed report has reached Vienna that Queen Draga has been shot at in the streets of Belgrade.

The Neue Freie Presse and other Viennese newspapers published voluminous accounts, one declaring the Serbian queen was assassinated, another that she was wounded and a third that she committed suicide. Reports from other sources denied the report that Queen Draga was killed and asserted that the rumor of her death was caused by a hysterical scene with King Alexander. There is no reliable information on the subject here, but it is believed that a serious crisis exists in Belgrade.

Paris, Nov. 21.—According to a dispatch from Vienna to The Echo de Paris an attempt has been made to assassinate the queen of Serbia, three shots having been fired at her while she was driving near Semlin. A dispatch to the same paper from Belgrade gives a rumor that the queen attempted suicide at Semlin.

RUN THE NEGROES OUT.

Colored Homesteaders Being Ejected in Oklahoma.

Guthrie, O. T., Nov. 21.—Notwithstanding the announcement of United States Attorney Horace Speed that he will have cancelled the homestead entry of every man who makes an attempt to eject a colored homesteader from his claim complaints of such action against colored men are filed daily with the United States marshal asking protection for negroes who drew claims in the recent government land lottery. More than 100 colored homesteaders have been run out of that country.

GIVES HIMSELF UP.

An Englishman Confesses Numerous Forgeries to Indianapolis Police.

Indianapolis, Nov. 21.—J. Verall, an Englishman, walked into the police station here, and, after confessing that he had committed 20 or more forgeries in various parts of the country, said he wanted to give himself up. The forgeries, he said, aggregate \$12,000 and were committed under various aliases in Cincinnati, Evansville, Indianapolis, New York, Philadelphia, Boston, Peoria, Ill., Chicago, Halifax, N. S., Toronto, Ont., and Dayton, O. The forgeries have for the most part been in small amount. Verall is 38 years of age and says he has been traveling since his wife left him at Cincinnati.

"Call me a blackguard," he said, "I have lost all claim to respectability. I am related to the old English family of Neville and that is why I sometimes assumed that name." He refused to give further details.

HORSE THIEVES CAUGHT.

Sheriff Breaks Up a Bad Gang at La Crosse, Wis.

La Crosse, Wis., Nov. 21.—Sheriff Barber and posse have unearthed a rendezvous of criminals near Genoa, just south of this city. As a result of the raid on the camp John Butterfield and Will Townsend are behind the bars, the remainder of the gang having escaped. Butterfield is charged with larceny, but will be tried, released and rearrested by the sheriff of Vernon county charged with cattle stealing. It is alleged that Butterfield and his confederates are the men who have stolen hundreds of head of cattle in Vernon and La Crosse counties during the summer.

Alabama's Constitution Carries.

Montgomery, Ala., Nov. 21.—The governor, secretary of state and attorney general opened and counted the vote on the new constitution during the day. The result shows a majority of 28,429 for the constitution. The governor will issue his proclamation within a few days and 10 days thereafter the new law will go into effect.

Will Not Call in American Aid.

Ottawa, Ont., Nov. 21.—At the cabinet meeting the government decided not to grant the request of the shipwrecked of Montreal that the coasting laws in the upper lakes be amended so as to permit of American boats trading for the remainder of the season from Canadian ports.

Will Be Sent to the Orient.

Washington, Nov. 21.—Commander S. A. Staunton, flag secretary to Rear Admiral Sampson during the Spanish war, has been ordered to assume command of the United States steamship Rainbow. The Rainbow is now being fitted at New York for special service on the Asiatic station.

Want Oleomargarine Taxed.

Lewiston, Me., Nov. 21.—The National Grange has adopted resolutions urging congress to put a tax of 10 cents a pound on oleomargarine and all substitutes for dairy butter and in favor of a universal peace congress in connection with the exposition at Charleston.

OPENING OF PARLIAMENT.

Event Will Occur a Week Earlier Than Intended.

London, Nov. 19.—The original intention was to reopen parliament Jan. 23, the date of the expiration of the mourning of the court for Queen Victoria, so as to enable King Edward to be present with full state ceremony. It is now understood, however, that financial needs will compel an opening a week earlier.

In a letter conveying an expression of his thanks for a vote of confidence in the policy of the government, Lord Salisbury administers the following characteristic rebuke to pro-Boers in Great Britain:

"We need such encouragement, for England is, I believe, the only country in which during a great war eminent men write and speak publicly, as if they belonged to the enemy."
